Who are we

Akamoto have established in the United Kingdom to supply our products to the modifying car world that want the best in both performance and styling as we know how important the combination of the two are. We are very proud of our quality in both merchandise and service and feel we beat any competition hands down.

We have many many hours researching all over the globe to find the best suppliers for parts and accessories to produce our unique and custom kits. We have always looked for the finest quality manufacturers rather than the cheapest as the truth is, you do get what you pay for!, and buying cheap gear not only looks cheap but usually under performs and does not have a long life without requiring attention. Where with the Akamoto Systems you are sure to get the finest of EVERY component with your supply.

We have a large workshop of where we carefully assemble our products ready to be distributed to our customers. Here is also where we test our systems, create new ideas and permanently work towards new technologies to keep us a steady one step ahead of any competition.
